

## Troop 52 Website Authorization

To comply with Boy Scouts of America, Connecticut Rivers Council youth protection guidelines, we are requesting that parents give consent for their child to be included on our website. We will not list any scout's last name, but rather refer to him as "Joe L". Regarding pictures, we will only publish group pictures on our website and will never refer to any of the scouts who are in any picture by name. The following are the youth protection guidelines that we will adhere to.

"Names or identifying information about youth members shall not be published without parent's signed approval. Names and information about any adult shall be published only with the written approval of that individual. Pictures of youth may appear on the web when appropriate signed parental consent has been received by the webmaster. No name or other personal information may be associated with the pictures on the site. Under no circumstances shall the address, personal phone number or email address of any youth be published on the Internet."

---

I give permission for my son \_\_\_\_\_  
(scout's name)  
to be included on Troop 52's website in accordance  
with the youth protection guidelines of the Connecticut  
Rivers Council.
